

To Whom It May Concern,

Batya Harush-Etrog worked at Radio Tel-Aviv 102FM, for 5 years. She hosted a variety of prime time radio shows at the station; also she lectured news broadcasting and Hebrew communication in a 'Radio Studies Class', at Radio Tel-Aviv College.

Among the many shows she hosted, her daily show 'Top 8 at eight', the top 8 hits of Radio Tel-Aviv was outstanding, in the way she presented it with devotion, and much enthusiasm.

In addition to her work as a leading broadcaster, Batya was the 'Voice of the Station': all the jingle and the promos made conspicuous her unique voice and she had the exclusive privilege in this area.

Batya's abilities as a broadcaster are unlimited. She succeeded in raising the level of music broadcasting to new heights and qualities that had not been heard in the Israeli radio. Her technical abilities in handling the studio were impressive and much more than this, the understanding of radio activity during every second on the air and the musical contents were very high.

As a Program Manager, Batya was a source of pride for me and an excellent example for the other broadcasters in the radio. Her daily work was done independently with a confident and pleasant style.

In any radio station that Batya will work for, she will quickly adapted, she will broadcast in the most professional and dedicated manner that could be hope for.

Sincerely,

Limor Dahan,

'Radio Tel-Aviv College' Professional Manager & previously Vice President for Contents Issues of Radio Tel Aviv 102FM.
